ISDN BASIC RATE INTERFACE SERVICE

C. REGULATIONS (Continued)

4. The customer must provide customer premises equipment that meets the technical requirements of the serving central office.
5. Customers must choose from a standard set of terminal button configurations when adding a terminal to a line. The charge for changing an existing terminal button configuration is listed in D.4.a. following. This charge is waived if the change is made as the result of adding a feature or service.
6. The customer is responsible for providing power to all customer premises equipment (CPE) attached to the ISDN Basic Rate Access Line.
7. The customer must notify the Telephone Company when terminals are added or removed from a Basic Rate Access Line. This is in order to maintain the proper provision of directory numbers and call control on the line.
8. An End User Common Line Charge (EUCLC) is applied to each Basic Rate Access Line.
9. One 911 charge is applied to each Circuit Switched B-Channel.
10. When a customer transfers a call, the customer is responsible for any toll charges associated with the customer originated leg(s) of the call.
11. Service from some central offices may not provide all of the features and functionality described in this tariff.
12. When placing an order for service(s) a Customer may request a service date that is sooner than the standard interval service date. If the Company agrees to and meets the requested expedite date, an expedite charge will apply and will be in addition to installation charges and all other nonrecurring charges.
